## Education Credit

**Category 1:** Creighton University Health Sciences Continuing Education designates this live activity for a maximum of 9.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

AAPA accepts AMA category 1 credit for the PRA from organizations accredited by ACCME.

**Nurse CE:** Creighton University Health Sciences Continuing Education designates this activity for 9.0 contact hours for nurses. Nurses should claim only credit commensurate with the extent of their participation in this activity.

**Nurses licensed in Iowa and California:** This activity was planned and developed in accordance with the continuing education standards of the American Nurses Credentialing Center (ANCC). The Iowa Board of Nursing and the California Board of Nursing will honor ANCC continuing education credits for face-to-face programs held outside Iowa and California, or for ANCC-approved online recorded courses taken in a self-study format.

**Pharmacy:** The *2015 Trauma Symposium* is provided by Creighton University Health Sciences Continuing Education (HSCE). HSCE is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity is assigned Universal Activity (UAN) # 0839-9999-15-030-L04-P and is accredited for 9.0 hours for attendance of all CE sessions on June 12, 2015. The *2015 Trauma Symposium* is a knowledge-based CE activity.

**EMS:** This educational activity has been approved for up to 8.0 continuing education hours for all levels of EMS personnel through Creighton University.

**ACCREDITATION STATEMENT:** This activity has been planned and implemented by Creighton University Health Sciences Continuing Education and CHI Health for the advancement of patient care. Creighton University Health Sciences Continuing Education is accredited by the American Nurses Credentialing Center (ANCC), the Accreditation Council for Pharmacy Education (ACPE), and the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for the healthcare team.

**DISCLOSURE POLICY:** It is the policy of Creighton University Health Sciences Continuing Education, to ensure balance, independence, objectivity and scientific rigor in all its educational activities. All faculty participating in this activity are expected to disclose to the audience any significant financial interest or other relationship he/she has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation.

## Purpose and Objectives

**Purpose** – The symposium will provide practitioners with clinically relevant information and educational resources for evidence-based practice and literature review that will enhance knowledge, skills, and performance in the assessment and treatment of trauma patients.

**Objectives** – *At the end of this program, the participants should be able to:*

- Relate changes in wounding agents encountered during the recent Iraq and Afghanistan campaigns
- Describe changes in the management of torso injuries
- Identify changes in the management of extremity injuries including the use of tourniquets and shunts
- Explain Resuscitative Endovascular Balloon Occlusion of the Aorta and discuss the indications and the controversies related to this procedure
- Determine indicators signaling the presence of a difficult airway and what adjunct can be used to secure a difficult airway
- Discuss ways to deal with unexpected findings in a difficult airway
- Describe techniques to repair atrial and ventricular injuries and be able to discuss the controversies in the management in these injuries and predictors of patient outcomes
- Explain techniques to manage complex hepatic injuries and discuss controversies in the management of these injuries and predictors of patient outcomes
- Examine predictive models and outcomes of syndrome of exsanguination and discuss the indications for the surgical techniques involved
- Describe the role of Landstuhl Regional Medical Center in the care of war wounded from Operation Iraqi Freedom and Operation Enduring Freedom
- Describe the transport care of casualties transported by Critical Care Air Transport Teams (CCATT)
- Describe the 'Senior Distinguished Visiting Surgeons Program'
- Discuss the role of military nurses in initial resuscitation and management of incoming casualties and post-operative care
- Outline the organization of a military hospital
- Describe the integration and role of the nurse practitioner in the initial resuscitation and follow-up care in the academic medical center
- Outline the organization of an academic trauma center
- Describe the insertion and types of intracranial monitoring devices and how to measure intracranial pressure (ICP) and cerebral perfusions pressures (CPP)
- Discuss the indications for craniotomies and the operative technique to evacuate epidural and subdural hematomas and intraparenchymal hemorrhages
- Review the use of pelvic binders in pre-hospital stabilization of complex pelvic fractures
- Identify how trauma and orthopedic surgeons should work together in pelvic trauma patients that require immediate surgical intervention
- Discuss the role of angiography and angioembolization for the control of pelvic bleeding
- Explain the challenges in managing pregnant trauma patients
- Describe indications and operative technique for emergency Cesarean section
- Discuss the predictors of outcomes in the pregnant trauma patient
- Review the unique challenges in airway management in the trauma setting
- Discuss the benefits and risks of rapid sequence induction in the pre-hospital environment
- Identify evidence-based techniques for bag mask ventilation and optimal preoxygenation
- Discuss the benefits of video laryngoscopy and difficult airway tools to provide optimal outcomes to trauma patients
- Identify criteria for referral to a burn center
- Explain appropriate resuscitation techniques for burn victims
- Identify patients with frostbite who are candidates for urgent treatment
- Discuss the theoretical rationale and mechanical concepts of spine immobilization
- Identify parameters for developing a predictive index for trauma patients with spine compromise
- Describe the definition of Post-Traumatic Stress Syndrome
- Identify trauma patients who are experiencing psychological suffering
- Recognize the potential impacts on the provider in delivering care to the trauma surgical care
