# Scientific Program Information

## WORKSHOPS

Meeting workshops will be held on Tuesday, January 10, 2017, Thursday, January 12, 2017, and Saturday, January 14, 2017. Please refer to pages 13-18 for workshop details. Workshop registration fees are in addition to the Primary Scientific Meeting registration fee.

## PRIMARY SCIENTIFIC MEETING

The 2017 program has been reorganized to offer you a better return on your investment with your primary registration fee. We have increased the number of Plenary Session offerings at the meeting, which in return, has allowed for more CME and Self-Assessment Credit opportunities associated with the Primary Scientific Meeting. For ONE registration fee you may be eligible to earn up to 18 hours of CME and Self-Assessment Credit.\*

*\*Additional fees for workshops apply.*

## SCIENTIFIC PAPERS, QUICK SHOTS, AND SCIENTIFIC POSTERS

### SCIENTIFIC PAPERS

A total of 35 scientific paper presentations will be given during the 30<sup>th</sup> Annual Scientific Assembly over the dates of January 11-13, 2017. The Raymond H. Alexander, MD Resident Paper Competition will take place on Wednesday, January 11<sup>th</sup>; the Cox-Templeton Injury Prevention Paper Competition will be held on Thursday, January 12<sup>th</sup>.

### QUICK SHOTS

20 Quick Shot abstract presentations will be given on Wednesday, January 11, 2017. Quick Shots will be delivered as parallel plenary sessions with 10 Quick Shots per session. In the customary Quick Shot format, presenters will have three minutes to speak, discussants will have one minute to ask up to two questions, and the presenter given two minutes to respond.

## SCIENTIFIC POSTERS

40 scientific posters will be displayed and presented. Scientific Poster Rounds will be held on Thursday, January 12<sup>th</sup> from 1:45 pm-3:00 pm. During this session you will be able to meet the authors and discuss the posters. In addition, there will be an interactive Scientific Poster Gallery which will allow you to view the actual posters online as they will be displayed at the meeting.

## PLENARY SESSIONS & NAMED LECTURES

A total of 13 Plenary Sessions will be held during the 30<sup>th</sup> EAST Annual Scientific Assembly. The Scott B. Frame, MD Memorial Lecture will be delivered by EAST Past President, Dr. Michael Rotondo, on Thursday, January, 12, 2017 from 10:30 am-11:30 am. All Plenary Sessions are included in the Primary Scientific Meeting registration fee.

## EXHIBITS

### **NO SUIT, NO PROBLEM: FOSTERING RELATIONSHIPS & BUILDING CAREERS**

This session has become a favorite for attendees. The 2017 session will be held on Thursday, January 12, 2017 from 5:30 pm-6:45 pm. This forum will give junior faculty the opportunity to meet with EAST Senior Members to discuss career pathways, research development, and skill sets.

### **EAST COMMUNITY OUTREACH 2017**

The 2017 EAST Community Outreach program will focus on hemorrhage control training for non-medical personnel and will include training and simulation exercises. In response to the mass shootings events that have occurred, EAST will be hosting this important training and simulation exercises focused on the **Stop the Bleed<sup>SM</sup>** and **Hartford Consensus<sup>TM</sup>** information. Those to be trained include Diplomat Resort & Spa Security Staff, other hotel staff, and local first and immediate responders. The EAST Community Outreach Program, now in its sixth year, is coordinated by the EAST Injury Control and Violence Prevention Section and will be held on Tuesday, January 11, 2017 from 7:30 am-3:00 pm.

### **INTERESTED IN VOLUNTEERING FOR EAST'S 2017 EAST COMMUNITY OUTREACH?**

The 2017 event will be held at the Diplomat Resort & Spa in Hollywood, Florida on Tuesday, January 10, 2017 from 7:30 am-3:00 pm. If you are interested in volunteering, please contact the EAST offices at [managementoffice@east.org](mailto:managementoffice@east.org) or call 312-202-5508.

### **Military-Civilian Collaboration for Optimizing Medical Preparation for Combat Readiness**

*Presented by the EAST Military Section*

The report of the Committee on Military Trauma Care's Learning Health System and its Translation to the Civilian Sector was published in June 2016. The report details recommendations to both the military and civilian sectors. The recommendations are broad and thought-provoking. Many of the recommendations will require substantial support from the military and civilian EAST membership, at the local, regional and national level. If followed, they will make a significant impact on both civilian and military trauma care in the U.S. The report will inform EAST and the trauma community of the critical need of expanded future partnerships with our military medical services. This plenary session will introduce the MHS-Civilian collaboration and interpret the IOM report.

**Moderator:** Donald H. Jenkins, MD

**Speakers:**

Ronald M. Stewart, MD – Reaction to the IOM Report

Jay Johannigman, MD – Current Military-Civilian Training Paradigm

Robert Mabry, MD – Prehospital Dilemma in Civilian Trauma Care:

Where Does the Data Go and How Do We Integrate it with

Hospital Long-Term Outcomes

Todd Rasmussen, MD – Active Duty Challenges Operationalizing the Proposed Paradigm

### **Commonly Raised Questions with Verification**

*Presented by the Society of Trauma Nurses (STN)*

This session will focus on new verification criteria with best practice examples on how to assist trauma centers with identification of successful metrics and process improvement. The session will address documentation and evaluation of trauma care practices and strategies to demonstrate compliance during survey.

**Moderator:** Julie Nash, MSN, RN

**Speaker:** R. Todd Maxson, MD

**2:00 pm-3:00 pm**

**Plenary Session**

### **Firearm Injuries in the United States – A Public Health Crisis!**

*Presented by the EAST Annual Scientific Assembly Section*

This session will lead the discussion on the challenges in addressing gun violence throughout this country. We will paint the picture of this public health crisis that plagues our communities. The session will also bring to the table numerous vantage points featuring presentations from our colleagues and contemporaries directly involved in the Orlando, and Dallas tragedies. The discussion will include looking into systems enacted, care delivered, and how teams coped with the tragedy in the aftermath.

**Moderators:** Michael F. Rotondo, MD & Ronald M. Stewart, MD

**Speakers:**

Joseph V. Sakran, MD, MPH, MPA – Outlining the Scope of the Problem

Michael L. Cheatham, MD – Lessons Learned from Pulse/Orlando

Alexander L. Eastman, MD, MPH – Lessons Learned from Dallas

Robert D. Winfield, MD – Developing an Action-Oriented Plan

**3:15 pm-4:30 pm**

**EAST Annual Business Meeting - Open to All EAST Members**

**4:30 pm-5:30 pm**

**Parallel Quick Shots**

**Quick Shots Session I – Clinical Trauma –**

Quick Shots 1-10 presented

**Quick Shots Session II – Trauma Systems –**

Quick Shots 11-20 presented

### **EAST Receptions & Special Events**

**5:45 pm-7:00 pm**

**EAST Donor & Exhibitor Appreciation Reception** (*By invitation only*)

**6:30 pm-8:30 pm**

**Opening Reception - Ticketed Event** (*RSVP required*)

# THURSDAY, JANUARY 12, 2017

**7:00 am-8:00 am**

**Parallel Plenary Sessions**

## **Firearm Injury Research: Who, What, Where, When, How?**

*Presented by the EAST Injury Control & Violence Prevention and Research-Scholarship Sections*

Firearm injuries claim the lives of over 33,000 Americans per year; a total that now exceeds that of motor vehicle traffic deaths. While policy pertaining to firearms remains controversial, it is clear that new and better data are needed to reduce firearm injuries and deaths in the United States. This session will focus on identification of existing knowledge and knowledge gaps in the area of firearm injuries and promote discussion amongst EAST members on the future of research in this emerging public health issue.

### **Moderators:**

Alexander L. Eastman, MD, MPH & Robert D. Winfield, MD

### **Speakers:**

Marie L. Crandall, MD, MPH – Firearm Injuries: Epidemiology, No Speculation

Erik W. Streib, MD – Federal Limits on Firearm Injury Research: What Can and Can't Be Supported?

Jeffrey S. Upperman, MD – Kids with Guns: Avoidable Tragedies?

## **EAST Masters Class Video Session: Tips, Tricks, and Techniques in Trauma and Emergency General Surgery**

*Presented by the EAST Online Education Section*

Each presentation will feature an edited video demonstrating the most important points and technical steps of performing a procedure, and each will be narrated in real-time by a subject matter expert. The narration will highlight not only key steps in preparation and execution of the procedure, but also important tips/tricks for avoiding major pitfalls or other complications. Two main topic areas will be covered, Trauma & Surgical Critical Care, and Emergency General Surgery.

**Moderators:** Matthew J. Martin, MD & Alison M. Wilson, MD

### **Speakers/Videos:**

#### **Trauma & Critical Care Videos**

Joseph J. DuBose, MD – REBOA: How I Do It

Daniel J. Grabo, MD – Exposing and Repairing the Retrohepatic Vena Cava

Paula Ferrada, MD – Limited Trans-Thoracic Echocardiogram to Guide Resuscitation

#### **Emergency General Surgery Videos**

Jason W. Smith, MD, PhD – Direct Peritoneal Resuscitation

Matthew J. Martin, MD – Video-Assisted Retroperitoneal Debridement of the Pancreas

**Engage the Masters Part I**

*Presented by the EAST Career Development Section*

The “Engage the Masters” forum will be a highly interactive session that will allow residents, fellows and junior faculty members to present brief, interesting cases to a panel of “Masters” who will discuss the management options, pitfalls, and innovations.

**Moderators:** Gary T. Marshall, MD; Ayodele T. Sangosanya, MD; Ronald B. Tesoriero, MD

**Masters:** Ernest E. Moore, MD; Kimberly K. Nagy, MD; Andrew B. Peitzman, MD

**Case Presentations:**

The End of the Schrock Shunt? – Zachary D. Warriner, MD, University of Kentucky  
Impaled by a Backhoe... – Carrie Valdez, MD, Covenant Hospital

**Introduction to the 2017 EAST Multicenter Trials**

*Presented by the EAST Multicenter Trials Section*

Young researchers often face significant challenges in identifying and organizing multicenter collaborative investigations. Organizations such as the Eastern Association for the Surgery of Trauma provide a unique opportunity for peers to develop collaborative relationships centered on shared research interests. Furthermore, the sponsoring of a multicenter trial by the Association may empower resource-limited centers and junior investigators to build a robust trial and enable them to reach and engage other sites to participate and yield greater scientific power and sample size to their multicenter clinical trial. All newly accepted 2017 EAST Multicenter Trials will be featured and reviewed.

**Speakers:** Jose Pascual, MD, PhD and Jason W. Smith, MD, PhD

**4:30 pm-5:30 pm**

**Parallel Plenary Sessions**

**Engage the Masters Part II**

*Presented by the EAST Career Development Section*

This session is a continuation of Engage the Masters Part I.

**Moderators:** Gary T. Marshall, MD; Ayodele T. Sangosanya, MD; Ronald B. Tesoriero, MD

**Masters:** Ernest E. Moore, MD; Kimberly K. Nagy, MD; Andrew B. Peitzman, MD

**Case Presentations:**

When OB Calls for “HELLP” – Molly Deane, MD, Harbor UCLA  
Subcutaneous Emphysema of the Neck Following Blunt Chest Trauma – Carlos H. Palacio, MD, Baylor College of Medicine

**Nutrition and Surgical Patients:  
Confusion Reigns Supreme!**

*Presented by the EAST Emergency General Surgery Section*

Much of current practice is driven by tradition, training, and dogma. Recently, however, several high-quality provocative nutrition trials have been published. Controversy surrounds the interpretation of these trials and readers may be left confused about how to treat their patients. This session will review recent “landmark” nutrition studies and help the audience place them into the context of trauma and surgical patients. Additionally, this session will review the nutritional approach to complex fistulas and gastric residual volume measurements in the ICU.

**Moderator:** D. Dante Yeh, MD

**Speakers:**

Paula Ferrada, MD – Nutritional Therapy of Complex Fistulas  
Michael W. Cripps, MD – Immunonutrition in the ICU: REDOX and MetaPlus  
Adam D. Fox, DO – Gastric Residual Volumes: What’s the Evidence? What’s the Point?  
Edgardo S. Salcedo, MD – Permissive Underfeeding in the ICU: EDEN or Hades?

**5:30 pm-6:45 pm**

**No Suit, No Problem: Fostering Relationships & Building Careers**

*Presented by the EAST Career Development Section*

Often professionals need guidance from individuals who are not at their own institution. Sessions such as this one are essential in giving professionals the opportunity to network, make contacts outside of their institution and gain advice essential for success in their careers. This forum will give junior faculty the opportunity to meet with EAST Senior Members to discuss career pathways, research development, and skill sets.

**EAST Receptions & Special Events**

**6:30 pm-7:30 pm**

**Society of Trauma Nurses Networking Reception** *(By invitation only)*

**7:00 pm-9:30 pm**

**EAST President’s Reception & Dinner** *(By invitation only)*

# FRIDAY, JANUARY 13, 2017

## Parallel Plenary Sessions

### Scientific Papers That Should Have Changed Your Practice

*Presented by the EAST Manuscript and Literature Review Section*  
Want to see if you may have missed a true “game changer” among the many papers you are presented with every day? Want a thoughtful review of a paper you know is important but have not had the time to thoroughly read? Want to know if there were any important but subtle findings in the papers you thought you read well? Then this session is for you! We will review the most important papers in the last year in the fields of: adult trauma, pediatric trauma, emergency general surgery, and surgical critical care.

**Moderator:** Patrick L. Bosarge, MD

#### Speakers:

David J. Skarupa, MD – Papers That Should Have Changed Your Practice of Adult Trauma Management  
James (Trey) W. Eubanks, III, MD – Papers That Should Have Changed Your Practice of Pediatric Trauma Management  
Amy Makley, MD – Papers That Should Have Changed Your Practice of Emergency General Surgery  
Sheryl Sahr, MD, MS – Papers That Should Have Changed Your Practice of Surgical Critical Care

### From Baghdad to Bethesda: A Battlefield Trauma Morbidity and Mortality Conference

*Presented by the EAST Military Section*  
This session will consist of a moderated discussion of four cases from the conflicts in Iraq and Afghanistan that resulted in a potentially preventable death or major adverse outcome. The cases will be presented in a standard M&M conference format, with open audience discussion throughout regarding key management decisions and options, and suggestions for preventing or minimizing the adverse events.

**Moderator:** Daniel J. Grabo, MD, Commander, US Navy

#### Speakers:

Kirby Gross, MD, Colonel, US Army – A Death on the Battlefield: Never Forget  
Matthew J. Martin, MD, Colonel, US Army – Fast & Furious: Immediate Adverse Events During Forward Care  
Gerald R. Fortuna, Jr., MD, Colonel, US Air Force – Just When You Think You Survived the Battlefield...Surviving Afghanistan and Evacuation to Landstuhl  
Carlos Rodriguez, DO, MBA, Captain, US Navy – Ever Vigilant: Delayed Complications in the Role 5 Setting

**8:30 am-10:30 am**

## Taking the Lead: Strategies for Leading within Your Group - An EAST Leadership Development Workshop

**TUESDAY, JANUARY 10, 2017 • 8:00 AM – 4:00 PM**

*Presented by the EAST Career Development Section*

**Target Audience:** Early Career Trauma and Acute Care Surgeons

**Needs Statement:** A successful career as an acute care surgeon requires education, planning, and guidance. Not all young surgeons have experts in career development in their mentor pool. This workshop provides essential contacts and education to help acute care surgeons succeed.

**Overview:** This re-designed workshop is part of the EAST Leadership Development series. It is a three part, multi-year course focusing on the career development of the young trauma surgeon. Each workshop is designed to be a stand-alone course. In this way, surgeons can participate in the course at any time in the three-part series. This year's workshop will focus on leadership skills and strategies for the individual acute care surgeon. The knowledge and skills gained at this course can be applied not only at one's own medical center but also at the organizational level. Team-based learning exercises will be incorporated to encourage an active learning experience and provide more opportunity for interaction with course faculty. The faculty members include distinguished trauma and acute care surgery leaders known for excellence, not only in the EAST organization, but throughout the world.

### **Learner Objectives:**

At the conclusion of the workshop, the participant should be better able to:

1. Describe effective teaching skills and team leading strategies.
2. Recognize different personality types and communication styles and apply that knowledge to challenging leadership scenarios.
3. Analyze difficult leadership situations and apply leadership and team-building principles.

**Workshop Directors:** Bradley M. Dennis, MD, Gary T. Marshall, MD, Ayodele T. Sangosanya, MD

**Course Size:** 45

**Course Price:** \$500

**Faculty:** Mitchell Cohen, MD; Ronald I. Gross, MD; Stanley J. Kurek, Jr., DO; Andrew B. Peitzman, MD; PJ Schenarts, MD; C. William Schwab, MD; David A. Spain, MD; Nicole A. Stassen, MD; Cynthia L. Talley, MD

## **SCHEDULE:**

**8:00 am – 8:15 am**

Introduction – Cynthia L. Talley, MD

**8:15 am – 8:45 am**

Effective Teaching Skills – PJ Schenarts, MD

**8:45 am – 9:15 am**

# Manuscript Writing 101: From Idea to PubMed

**TUESDAY, JANUARY 10, 2017 • 8:00 AM – 12:00 PM**

*Presented by the EAST Manuscript and Literature Review and Research -Scholarship Sections*

**Target Audience:** Junior Faculty, Fellows, and Residents

**Needs Statement:** Scientific Manuscripts in peer reviewed journals allow for the dissemination and exchange of ideas, experience, and observations. However, only about 50% of abstracts presented at scientific meetings are published in peer review journals. Given that the publication of manuscripts are used to gauge academic success by peers, chairs, and those that fund investigation, very little education is provided to young surgeons about how to be successful in this arena. The purpose of this session will be to discuss/educate young trauma surgeons on how to be successful in producing high quality manuscripts in order to form a good foundation for their scientific career.

**Overview:** This session will provide a three pronged instruction about how to generate a good idea and hypothesis, produce a good abstract and manuscript and finally how the editing process works and how to get the manuscript published quickly and efficiently.

## **Learner Objectives:**

At the conclusion of the workshop, the participant should be better able to:

1. Understand idea inception, hypothesis generation and data acquisition
2. Offer insight into manuscript generation and forum for dissemination
3. Understand the review and editing process following abstract submission

## **Workshop Director:**

Jason W. Smith, MD, PhD

**Course Size:** 45

**Course Price:** \$375

## **Faculty:**

Ernest E. Moore, MD  
Kevin M. Schuster, MD, MPH  
Jason W. Smith, MD, PhD  
Ben L. Zarzaur, MD

## **SCHEDULE:**

**8:00 am – 9:00 am**

Idea and Hypothesis Generation and How to Develop an Idea Into a Workable Dataset – Ben L. Zarzaur, MD, MPH

**9:00 am – 10:00 am**

Identifying the Best Forum for Your Idea and How to Present – Kevin M. Schuster MD, MPH

**10:00 am – 11:00 am**

Manuscript Generation Do's and Don'ts – Jason W. Smith, MD, PhD

**11:00 am – 12:00 pm**

The Editing Process, the Revision Process, and What Makes a Good Manuscript from a Reviewer's and Editor's Point of View – Ernest E. Moore, MD

# Bridging the Gap: A Fellow's Workshop

**TUESDAY, JANUARY 10, 2017 • 1:00 PM – 5:15 PM**

*Presented by the EAST Career Development Section*

**Target Audience:** The audience is anyone soon pursuing or recently acquired a position in trauma and acute care surgery in both academic and private practice settings. This ranges from chief residents entering fellowship to new faculty.

**Needs Statement:** While most fellowships teach patient care and operative management, there are variable resources for transition to practice.

**Overview:** Bridging the Gap is a workshop that matches young people pursuing a career in trauma and acute care surgery with mentors and leaders in the field that can provide tips for pursuing their career, navigating the hiring process, and starting the job out right.

## **Learner Objectives:**

At the conclusion of the workshop, the participant should be better able to

1. Name variables to consider in order to find the right job
2. Understand the hiring process including contracts, academic tracts, and private practice resources/expectations.
3. Name tips to starting the job out right including exploiting your niche, developing a professional portfolio, and avoiding landmines.

**Workshop Director:** Cynthia Talley, MD

**Course Size:** 45

**Course Price:** \$375

**Faculty:** Andrew C. Bernard, MD; Ronald I. Gross, MD; Stanley J. Kurek, DO; PJ Schenarts, MD; C. William Schwab, MD; David A. Spain, MD; Nicole A. Stassen, MD; Alison M. Wilson, MD; Robert D. Winfield, MD

## **SCHEDULE:**

**1:00 pm – 1:05 pm**

**Introduction – Cynthia Talley, MD**

**1:05 pm – 1:20 pm**

**EAST Opportunities and Resources – Nicole A. Stassen, MD**

**1:20 pm – 2:35 pm**

**Panel Discussion: Finding the Right Job**

- Knowing Yourself – Robert D. Winfield, MD
- What Makes a Good Applicant? – Nicole A. Stassen, MD
- Different Practice Models – David A. Spain, MD

**2:35 pm – 2:40 pm**

**Break**

**2:40 pm – 3:55 pm**

**Panel Discussion: Understanding the Hiring Process**

- Contracts – Alison M. Wilson, MD
- Financial Support and Resources – Stanley J. Kurek, Jr., DO
- Expectations and Measure of Work – Andrew C. Bernard, MD

**3:55 pm – 4:00 pm**

**Break**

**4:00 pm – 5:15 pm**

**Panel Discussion: Starting the Job off Right**

- Staying Out of the Chair's Office – C. William Schwab, MD
- Exploiting your Niche/Developing a professional Portfolio – PJ Schenarts, MD
- Advancing your Career – Ronald I. Gross, MD

*NOTE: CME or Self-Assessment Credit will not be offered for this workshop.*

# Advanced Practitioners in Trauma Workshop – Professional Development Strategies Regarding Provider Value and Burnout and Clinical Strategies for Radiologic Ordering and Interpretation

THURSDAY, JANUARY 12, 2017 • 12:30 PM – 4:00 PM

*Presented by EAST and the Society of Trauma Nurses (STN)*

**Target Audience:** Advanced Practitioners in the field of Trauma/Surgical Critical Care/Acute Care Surgery and Physician Supervisors and Liaisons for Advanced Practitioner Groups

**Needs Statement:** Advanced practitioners are often faced with professional challenges of showing their value and maintaining job satisfaction while, at the same time, avoiding the growing challenge of provider burnout. The vast majority of practitioners will be involved in an adverse patient event during their career. However, healthcare systems often do not provide the necessary emotional support needed for these practitioners. Without this support practitioners can become the second victim of the adverse event. A clinical portion of the program will address the educational needs focusing on radiological interpretation and diagnostic imaging modalities for the trauma, critical care, and emergency general surgery patient.

**Overview:** The professional development portion of the workshop will focus on strategies regarding the maintenance of job satisfaction and communicating the value of an advanced practitioner program to facility physicians and administrators. We will also address the topic of provider burnout and the untoward sequelae that can occur for the provider who is involved in an adverse patient event. Speakers will also provide concrete strategies that healthcare systems may implement to emotionally support the practitioner. A clinical portion of the workshop will address the clinical educational needs of advanced practitioners regarding the ordering and interpretation of common diagnostic radiological imaging. This segment of the program will focus on more specifically on body and neurological imaging.

## Learner Objectives:

At the conclusion of this workshop, the participant should be better able to:

1. Provide strategies to maintain job satisfaction and demonstrate value when communicating with physicians and administrators.
2. Define the term second victim, the negative consequences a second victim may face if left untreated, and strategies of a rapid response team to deliver provider support.
3. Better understand and interpret radiologic diagnostic imaging studies focusing on CT body and imaging for neurological injuries.

**Workshop Director:** A. Britton Christmas, MD

**Course Size:** 50

**Course Price:** \$375

**Faculty:** A. Britton Christmas, MD; Jamie Jones Coleman, MD; Coleen Dever, MSN, APRN, ACNS- BC; Jasmine Garces-King, DNP, RN, CCRN, TCRN, ACNP-BC; Cragin Greene, MHS, PA-C; Gaurav Sachdev, MD

## SCHEDULE:

**12:30 pm – 1:30 pm**

Advanced Practitioners Bring CLEaR Value to the Trauma/Critical Care Service – Jasmine Garces-King, DNP, RN, CCRN, TCRN, ACNP-BC & Cragin Greene, MHS, PA-C

**1:30 pm – 2:30 pm**

The Second Victim and Burnout: How to Help Providers Who Have Been Involved in an Adverse Patient Outcome – Coleen Dever, MSN, APRN, ACNS- BC

**2:30 pm – 3:15 pm**

Ordering and Interpretation of Diagnostic Imaging Studies for Neurological Injuries: CT Head & Spine – Jamie Jones Coleman, MD

**3:15 pm – 4:00 pm**

Ordering and Interpretation of Diagnostic Imaging for Truncal Injuries: CT Body – Guarav Sachdev, MD

# Basic Endovascular Skills for Trauma<sup>®</sup> Workshop

SATURDAY, JANUARY 14, 2017

**LECTURE • 7:00 AM-9:45 AM**

**SKILLS LABS • 10:00 AM-11:25 AM & 11:35 AM-1:00 PM**

*Pre-registration required. On-site registrations will not be accepted.*

**Target Audience:** Acute Care Surgeons and Surgical Fellows

**Needs Statement:** The use of interventional procedures in vascular trauma has significantly increased over the past ten years. Translational studies have noted the physiologic benefits of REBOA (resuscitative endovascular balloon occlusion of the aorta) in the setting of abdominal and pelvic hemorrhage. Recent case reports have demonstrated safe and effective control of hemorrhage using REBOA in trauma patients with life-threatening hemorrhage below the diaphragm. This skill set can be performed safely in the resuscitation suite using x-ray, or in the operating room under fluoroscopy. The advent of the hybrid operating room coupled with the potential benefits of endovascular techniques in the setting of trauma will likely result in an increasing number of patients being diagnosed and treated with catheter-based interventions. This Workshop is intended to serve as an Introduction to REBOA, and those who wish to pursue more in-depth training may inquire about the BEST Course which offers more hands-on training with cadavers including ultrasound guided access, percutaneous and open cannulation of the CFA, and CFA repair.

**Overview:** Didactics and hands on procedural skill acquisition of REBOA through virtual reality simulation

## Learner Objectives:

At the conclusion of this workshop, the participant should be able to:

1. Demonstrate indications for REBOA
2. Understand access and closure of common femoral artery
3. Demonstrate tools required for REBOA
4. Demonstrate technique of REBOA

**Course Director:** Megan Brenner, MD, MS

**Course Size:** 48

**Course Price:** \$375

## WORKSHOP SCHEDULE:

**7:00 am – 7:30 am**

Registration, Pre-test, and Breakfast

**7:30 am – 7:40 am**

Introduction, History of REBOA, Translational Research

**7:40 am – 8:00 am**

Clinical Algorithm, Case scenarios, Clinical Research

**8:00 am – 9:45 am**

Technique of REBOA (CODA and ER-REBOA)

## SKILLS LAB

Lab assignments will be assigned by EAST. One lab per registrant. Each lab is limited to 24 people.

**10:00 am-11:25 am**

Skills Lab 01

**11:35 am-1:00 pm**

Skills Lab 02

*This workshop coordinated by the American College of Surgeons.  
This workshop supported by an in-kind grant from Mentice and Prytime Medical.*

# Trauma Outcomes Performance Improvement Course (TOPIC)

**SATURDAY, JANUARY 14, 2017 • 7:00AM – 5:00PM**

*Presented by the Society of Trauma Nurses - For additional information on this workshop, visit the STN website at [www.traumanurses.org](http://www.traumanurses.org)*

**Target Audience:** Trauma Program Managers, Performance Improvement Coordinators, Trauma Program Medical and Associate Directors, and Trauma Staff involved in Performance Improvement

**Needs Statement:** The TOPIC course is taught to all members of the trauma system team who participate in ongoing assessment, evaluation, and improvement of trauma care. TOPIC focuses on the ongoing assessment of the continuum of trauma care with a structured review of process and trauma patient outcomes.

**Overview:** The Society of Trauma Nurses has developed the TOPIC in response to the need for education and better understanding of the Performance Improvement process in trauma care. The TOPIC course is taught in a one day interactive Modular Format, customized to best meet the needs of the individual trauma care provider participants who have varying levels of experience with trauma performance improvement. The course offers practical application for all Levels of trauma centers, from entry level to mature phase of program development. The Modules are taught with a focus on didactic, operational definitions, sample tools, case study examples, and take home points.

## Learner Objectives:

At the conclusion of this workshop, the participant should be better able to:

1. Explain PI roles and responsibilities of the trauma PIPS team.
2. Describe performance improvement taxonomy, audit filter use and outcome measurement and evaluation.
3. Discuss practice management guidelines and their use in evaluating trauma center performance while minimizing variance in care.

**Course Directors:** Tracy McDonald, RN, MSN, CCRN-K, NEA-BC, Heidi A. Hotz, RN, John K. Cumming, MD, MBA, FACS

**Course Size:** 50

**Course Price:** \$350

**Faculty:** Tracy McDonald, RN, MSN, CCRN-K, NEA-BC, Heidi A. Hotz, RN, John K. Cumming, MD, MBA, FACS

## CONTINUING EDUCATION CREDIT

This continuing nursing education activity is provided by the Society of Trauma Nurses, an accredited provider by the American Nurses Credentialing Center's Commission On Accreditation, for 8.25 contact hours.

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the University of Kentucky College of Medicine, and Society of Trauma Nurses.

The University of Kentucky College of Medicine is accredited by the ACCME to provide continuing medical education for physicians. The University of Kentucky College of Medicine designates this live activity for a maximum of 8.25 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity. The University of Kentucky College of Medicine presents this activity for educational purposes only. Participants are expected to utilize their own expertise and judgment while engaged in the practice of medicine. The content of the presentations is provided solely by presenters who have been selected for presentations because of recognized expertise in their field.

## SCHEDULE:

# CODE OF CONDUCT FOR EAST MEETINGS

**1. Introduction.** The Eastern Association for the Surgery of Trauma (“EAST”) is a nonprofit corporation, organized for charitable, educational, and scientific purposes. In particular, EAST: (i) fosters advances in the study and practice of the surgery of trauma; (ii) provides a forum for the exchange of knowledge pertaining to injury control, research, practice, and training in prevention, care, and rehabilitation of injury; and (iii) advances research, education, and training regarding the prevention, correction, and treatment of injuries (“Exempt Purpose”). In furtherance of its Exempt Purpose, EAST conducts and/or sponsors educational meetings including, without limitation, Annual Scientific Assemblies and periodic internal and external meetings and programs (collectively “Meeting(s)”).

EAST seeks participation in its Meetings by individuals with varied and diverse backgrounds. EAST is committed to providing a friendly, safe and welcoming environment for all Meeting attendees, regardless of gender, sexual orientation, ability, ethnicity, socioeconomic status, religion (or lack thereof), and other individual characteristics. This Code of Conduct (“Code”) outlines EAST’s expectations of its Meeting attendees (including EAST members, EAST Board members, sponsors, invited guests, and any other person attending a Meeting), as well as the consequences for Unacceptable Behavior (defined below). We expect all Meeting attendees will abide by this Code at all Meetings, and in connection with activities outside of Meetings when such behavior has the potential to adversely affect the safety and/or wellbeing of Meeting attendees.

**2. Expected Behavior.** EAST expects its Meeting attendees will:

- Exercise consideration and respect in their speech and actions.
- Attempt collaboration before conflict.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.
- Be mindful of their surroundings and fellow attendees.
- Be respectful to all patrons at Meeting venues.

**3. Unacceptable Behavior.** “Unacceptable Behavior” EAST will not tolerate includes, without limitation:

- Violence, threats of violence, or violent language.
- Disruptive, intrusive, insulting, antagonistic, or any other malicious conduct.
- Sexism, racism, homophobia, transphobia, or other discriminatory conduct.
- Inappropriate photography or recording.
- Inappropriate physical contact.
- Unwelcomed sexual attention and/or advances; including, using sexualized language.
- Intoxication, contributing to inappropriate behavior.
- Deliberate intimidation, stalking or following (online or in person).
- Sustained disruption during Meeting events, including talks and presentations.
- Advocating for, or encouraging, any of the above behavior.
- Any other conduct deemed inappropriate and/or that may jeopardize the success of a Meeting, EAST’s reputation and goodwill, or the positive experience of any other Meeting attendee.

**4. Consequences of Unacceptable Behavior.** Unacceptable Behavior by Meeting attendees will not be tolerated. The determination of whether conduct constitutes Unacceptable Behavior, and the consequences imposed by EAST for the same, rest solely within EAST’s discretion, and said determinations are final and not subject to appeal. Anyone asked to stop Unacceptable Behavior is expected to comply immediately. If a Meeting attendee engages in Unacceptable Behavior and/or does not comply with this Code, EAST may take any action deemed appropriate, up to and including a temporary ban or permanent expulsion from a Meeting without warning (and without refund, in the case of a paid event).

**5. Reporting Guidelines.** If you are subject to, or witness, Unacceptable Behavior, or have any other concerns, please notify EAST as soon as possible by contacting EAST’s Executive Director or EAST’s Executive Committee. If the subject Unacceptable Behavior involves the Executive Director, please notify EAST’s current President. Additionally, Meeting organizers are available to help Meeting attendees engage local law enforcement, or to, otherwise, help those experiencing Unacceptable Behavior feel safe. During Meetings, organizers are available to provide escorts as desired to the Meeting attendee(s) experiencing distress.

Any questions or comments regarding this Code should be directed to EAST’s Executive Director.
