

POINT/COUNTERPOINT CONFERENCE

JUNE 11-12, 2018

BALTIMORE HILTON

CHARLES C. WOLFERTH, JR., MD MEMORIAL LECTURE

Charles C. Wolferth, Jr., MD

Charles C. Wolferth, Jr., a nationally known surgeon and medical expert, spearheaded a state law that created the Pennsylvania Trauma System Foundation. He battled for decades to develop a foundation that would monitor the quality of care in hospital trauma centers. His goal was to help prevent victims from dying needlessly during that “golden hour” – the first 60 minutes of care that can make the difference between life and death. Ultimately, the foundation became a model for other states. “Dr. Wolferth created a model that no other state can match,” said Dr. C. William Schwab, Founding Chief of Trauma and Critical Care Surgery at the Hospital of the University of Pennsylvania. Known as the “surgeon’s surgeon,” Schwab said, “there was no one better.” Dr. Wolferth was head of the Department of Surgery at Graduate Hospital when he retired in 1998.

During his 44-year career, he was Department Head, surgeon and teacher at HUP, Hahnemann University and Presbyterian Hospitals, and other medical centers. He was a member of 56 medical societies and the recipient of numerous awards, including the prestigious National Safety Council Surgeons Award for Services to Safety in 2000. Dr. Wolferth was the chief architect of the Point/Counterpoint Conference.

C. William Schwab, MD, FACS, Emeritus Professor of Surgery, Perelman School of Medicine, University of Pennsylvania, Founding Chief, Division of Traumatology, Surgical Critical Care & Emergency Surgery, will be the 2018 Charles C. Wolferth, MD Memorial Lecturer.

SHARON M. HENRY/MARYLAND COT STATE OF THE ART LECTURE

Sharon M. Henry, MD, FACS

Sharon M. Henry, MD, FACS, is the Anne Scalea Professor in Trauma at the University of Maryland School of Medicine and the Chief of the Division of Wound Healing and Metabolism at the R Adams Cowley Shock Trauma Center where she is also the Head of the Soft Tissue Infection Service. In addition to being recognized as an international expert in trauma surgery and soft tissue infections, Dr. Henry is also widely known for her untiring commitment to the educational efforts of the American College of Surgeons’ Committee on Trauma.

Upon becoming the State Chair of the Maryland COT in 2004, Dr. Henry set in motion the development of an impressive number of educational initiatives which culminated into a very successful Annual Maryland COT Trauma Care Symposium, which she spearheaded for several years. Under her outstanding leadership, Maryland’s ATLS program became one the best in the country. While personally engaged in teaching TEAM (Trauma Evaluation and Management) to thousands of medical students, she also brought ATOM, ASSET, RTTDC, DMEP and other advanced trauma courses to the Maryland COT, making all of them regularly available at the R Adams Cowley Shock Trauma Center.

In recognition for her tireless efforts at optimizing the care of the trauma patient, Dr. Henry has already received three Governor’s Proclamations, two Shock Trauma Hero Awards, the Shock Trauma Superstar Award, the Department of Surgery Teaching Award and the Meritorious Service Award of the American College of Surgeons. In 2015, she was further acknowledged by the Maryland COT with the establishment of the Annual Sharon M. Henry, State of the Art Lecture.

Grace S. Rozycki, MD, MBA, Willis D. Gatch Professor of Surgery and Associate Chair, Department of Surgery at Indiana University School of Medicine will be the 2018 Sharon M. Henry, MD State-of-the-Art Lecturer.

PLANNING COMMITTEE

Thomas M. Scalea, MD, FACS, MCM

COURSE DIRECTOR

moderators, the presenters, and the meeting participants.

This meeting will address relevant issues in trauma, emergency general surgery, and critical care. The format of Point/Counterpoint, a pro/con debate, will allow for critical analyses of the current body of evidence with interaction from the

COURSE CONTENT

- Objectively analyze the ongoing controversies in damage control.
- Describe specific management approaches to special injuries and different disease entities in managing damage.
- Cite evidence-based algorithms for management of the acutely ill patient population.

At the completion of this program, the attendee should be able to:

COURSE OBJECTIVES

Point/Counterpoint will assemble an expert faculty. We intend this to be evidence-based and expect a lively intellectual exchange. Our course syllabus will include a synopsis of each presentation and will be distributed at registration.

This year, the Charles C. Wolferth Jr., MD Memorial Lecture will be delivered by C. William Schwab, MD, FACS. On Friday, Grace S. Rozycki, MD, MBA, will be presenting the Sharon M. Henry/Maryland COT Lecture.

This year, we have attempted to make the content more broadly applicable to nurses, EMTs, advanced practice professionals, and physicians from a variety of disciplines. Gathering all who care for these challenging patients for two days can only serve to make us all better.

This year, we have attempted to make the content more broadly applicable to nurses, EMTs, advanced practice professionals, and physicians from a variety of disciplines. Gathering all who care for these challenging patients for two days can only serve to make us all better.

The 37th annual meeting of Point/Counterpoint will be held in Baltimore, Maryland on June 11 and 12. A number of things have changed. Again this year, the program will be two days. The focus will remain the same. This will be a review of the state of the art management strategies for common clinical problems, as well as challenging and controversial topics. This year Point/Counterpoint offers afternoon breakout sessions tailored to the specifics of “Damage Control” and “Controlling Damage”. This choice of sessions will appeal to a variety of participants. Various topics presented by subject matter experts in the field will provide state of the art information in an informative manner.

CONFERENCE DESCRIPTION

POINT/COUNTERPOINT CONFERENCE
PROGRAM SCHEDULE

2018 PRECONFERENCE PROGRAM

Saturday & Sunday, June 9 & 10, 2018
“Get Traumatized”, a TCRN Review Course (8:00 AM–4:00 PM)
Location: R Adams Cowley Shock Trauma Center (STC), STC Auditorium, 22 South Greene Street, Baltimore, MD 21201
This two day course offers a comprehensive review for nurses interested in sitting for the Trauma Certified Registered Nurse specialty certification exam. The review course incorporates the body of knowledge in trauma nursing that exists across the continuum of care from injury prevention to reintegration back into society and is taught by TCRN-certified and active bedside clinical nurses of R Adams Cowley Shock Trauma Center. Previous offerings of this course have seen a 95% pass rate for those who chose to sit for the exam, and 100% of participants would recommend this course to their colleagues. Come join us and prepare to Get Traumatized!
Accreditation: University of Maryland Medical Center is an approved provider of continuing nursing education by the Maryland Nurses Association, an accredited approver by the American Nurse’s Credentialing Center’s Commission on Accreditation. Nurses will receive 12.5 contact hours.
For additional information about the course, contact:
Course Coordinators:
June Guadalupe, BSN, RN, CEN, CCRN, CMC, CNRN, TCRN jguadalupe@umm.edu
Lauren Westbrook, BSN, RN, CEN, CCRN, TCRN lwestbrook@umm.edu
Sunday, June 10, 2018
Stop The Bleed Training and Train The Trainer Classes (12 Noon–3:00 PM)
Location: R Adams Cowley Shock Trauma Center - STC Area/Room #T1R15
Dr. Habeeba Park – R Adams Cowley Shock Trauma Center - Could you jump in to help save someone’s life in the event of a bleeding emergency? Help spread this valuable training to your community! This session will teach you proper bleeding control techniques. Learn what to do during times of crisis - before additional help arrives! To Register: www.mdcot.org

Monday, June 11, 2018
7:00 a.m. – 8:00 a.m. Registration/Continental Breakfast/Vendors
8:00 a.m. – 8:20 a.m. We Have Clear Guidelines for Fluid Resuscitation after Trauma – David Livingston
8:20 a.m. – 8:40 a.m. We Cannot Agree on Type of or Volume of Fluid to Give – Sharon Henry
8:40 a.m. – 8:45 a.m. Discussion
8:45 a.m. – 9:05 a.m. Fresh Whole Blood Saves Lives - David Efron
9:05 a.m. – 9:25 a.m. Fresh Whole Blood Does Not Help – Leonard Weireter
9:25 a.m. – 9:30 a.m. Discussion
9:30 a.m. – 9:45 a.m. Break/visit vendors
9:45 a.m. – 10:05 a.m. EMS is Best Suited to Transport Trauma Patients - David Marcozzi
10:05 a.m. – 10:25 a.m. Civilian Transport is Quicker and May Be Better – Elliott Haut
10:25 a.m. – 10:30 a.m. Discussion
10:30 a.m. – 10:50 a.m. MRI is an Essential Component of Clearing the C-spine – Jose Diaz
10:50 a.m. - 11:10 a.m. CT Is All We Need – Habeeba Park
11:10 a.m. – 11:15 a.m. Discussion
11:15 a.m. – 12:15 p.m. The Evolution of Military Damage Control – Todd Rasmussen
The Evolution of Civilian Damage Control – David Feliciano
12:30 p.m. – 1:15 p.m. Charles C. Wolferth, Jr., MD Memorial Lecture - C. William Schwab
One Nation, One System: Advancing Together or Not at All?
1:15 p.m. – 1:30 p.m. Break/visit vendors
1:30 p.m. – 3:30 p.m. Damage Control Controlling Damage
Damage Control for the Liver – C. William Schwab
How I do a Forearm Fasciotomy – Sharon Henry
Lower Extremity Fasciotomy – Habeeba Park
Complex Duodenal Repairs – David Feliciano
The Difficult Pancreas – David Efron
Operative Splenic Salvage – David Livingston
Continuous Renal Replacement Therapy to Clear Myoglobin – Paul Thurman
Optimal BP for Spinal Cord Injury – Karen McQuillan
Interpreting TEG – Babak Sarani
The Role of ECMO in 2018 – Jay Menaker
Positional Therapy for ARDS – H. Neal Reynolds
Multimodality Therapy for TBI – Deborah Stein
3:30 p.m. – 3:45 p.m. Break/visit vendors
3:45 p.m. – 4:15 p.m. Recovering after Severe Trauma: TSN, Post Discharge Programs, and Long Term Follow Up
Christopher Foran

THE POINT/COUNTERPOINT CONFERENCE SPEAKERS
Susan Miller Briggs MD, MPH, FACS
Associate Professor of Surgery
Harvard Medical School
Director, International Trauma and Disaster Institute
Massachusetts General Hospital
Kimberly A. Davis, MD, MBA, FACS, FCCM
Professor of Surgery (Trauma)
Chief of the Section of General Surgery, Trauma, and Surgical Critical Care
Vice Chairman, Clinical Affairs, Department of Surgery
Trauma Medical Director, Yale-New Haven Hospital
Surgical Director, Performance and Quality Improvement
Yale-New Haven Hospital
Jose J. Diaz, Jr., MD, CNS, FACS, FCCM
Professor of Surgery
Vice Chair Quality and Safety
Department of Surgery
Chief, Division Acute Care Surgery
Program Director Acute Care Surgery Fellowship Program in Trauma
R Adams Cowley Shock Trauma Center
University of Maryland Medical Center
Joseph J. DuBose, MD, FACS, FCCM
Associate Professor of Surgery
Uniformed Services University of the Health Sciences
Associate Professor of Surgery

Sunday, June 10, 2018
Chest Wall Stabilization Course (8:30 AM-4:00 PM)
Location: R Adams Cowley Shock Trauma Center for Critical Care and Trauma Education, Classroom #T1S12
The Chest Wall Stabilization Course at the UMMC / STC is an advanced course for general, trauma, and thoracic surgeons who care for trauma patients with severe rib fractures. The course will include a didactic portion to review the current literature: indications, bone healing science/hardware, and minimally invasive surgical approaches. The course will transition to the cadaver lab where participants will have hands-on training to focus on the repair of chest wall injuries.
At the conclusion of this activity, participants will be able to:
1. Recognize the indications for chest wall stabilization.
2. Define and explain the surgical approaches to chest wall stabilization.
3. Perform minimally invasive/muscle sparing approaches to rib plating.
Accreditation:
The University of Maryland School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
Credit Designation:
The University of Maryland School of Medicine designates this live activity for a maximum of 6 AMA PRA Category 1 Credit(tm). Physicians should claim only the credit commensurate with the extent of their participation in the activity.
Register:
To register for this 1 day course, please click on the link:

Tuesday, June 12, 2018
7:00 a.m. – 8:00 a.m. Registration/Continental Breakfast/Vendors
8:00 a.m. – 8:20 a.m. Surgeons Must Be the Ones to Place REBOA – Kimberly Davis
8:20 a.m. – 8:40 a.m. We Must Train Nonsurgeons as Well – Thomas Scalea
8:40 a.m. – 8:45 a.m. Discussion
8:45 a.m. – 9:05 a.m. The Federal Government Should Lead National Disaster Preparedness – David Marcozzi
9:05 a.m. – 9:25 a.m. The American College of Surgeons is Better Suited to Lead National Disaster Preparedness – Leonard Weireter
9:25 a.m. – 9:30 a.m. Discussion
9:30 a.m. – 9:45 a.m. Break/visit vendors
9:45 a.m. – 10:05 a.m. TXA is an Integral Part of a Massive Transfusion Protocol – Joseph DuBose
10:05 a.m. – 10:25 a.m. TXA is Unproven – Mayur Narayan
10:25 a.m. – 10:30 a.m. Discussion
10:30 a.m. – 10:50 a.m. After Recent Disasters, We Are Finally Prepared for the Next One – Susan Briggs
10:50 a.m. - 11:10 a.m. We are Still Terribly Vulnerable – Babak Sarani
11:10 a.m. – 11:15 a.m. Discussion
11:15 a.m. – 12:15 p.m. Pain Management and Palliative Care in the Era of the Opiate Crisis – Yvette Fouché-Weber
12:30 p.m. – 1:15 p.m. Sharon M. Henry/Maryland COT State of the Art Lecture – Grace S. Rozycki
The Use of Ultrasound in the Acute Care Setting: Lessons Learned After 25 Years
1:15 p.m. – 1:30 p.m. Break/visit vendors
1:30 p.m. – 3:30 p.m. Damage Control Controlling Damage
Technical Tips for REBOA Insertion – Jonathan Morrison
Operative Management of Pelvic Vascular Injuries – Thomas Scalea
Penetrating Groin Injuries, Tips for the General Surgeon – David Feliciano
Pelvic Packing, How I do It – Kimberly Davis
Thoracic Damage Control – James O’Connor
When and How to Place Vascular Shunts – Joseph DuBose
Managing Trauma Patients on Novel Anticoagulants – Mehrnaz Pajoumond
Update on Effective Use of Enteral Nutrition – Jose Diaz
Managing Agitation in the ICU – Daniel Herr
Who Should We Actually Transfuse? Mayur Narayan
What is Proportional Pressure Support Ventilation? Nader Habashi
Tips on Managing Complex Wounds – Elena Keller
3:30 p.m. – 3:45 p.m. Break/visit vendors
3:45 p.m. – 4:15 p.m. The Cutting Edge of Bleeding Control: Junctional Tourniquets, Foam and Beyond
