General Information

ACCOMMODATIONS

DISNEY'S CONTEMPORARY RESORT (HEADQUARTERS HOTEL)

A guest room block at the group rate of \$262 per night (plus applicable taxes – single or double occupancy) has been reserved for the Eastern Association for the Surgery of Trauma (EAST). To reserve your room at the special group rate, please make your reservation by December 8, 2017. The group rate is subject to room availability and is offered over the following dates: January 4-17, 2018. Reservations made after December 8, 2017 may not be eligible for the discounted EAST rate. Go to the [Annual Scientific Assembly](#) page of the EAST website to link to the online reservations page or call 407-939-4686 (indicate you are with EAST).

EAST has secured a government room rate at the current prevailing military rate which is currently \$129 per night (plus applicable taxes – single or double occupancy) for individuals actively serving in the military. A limited number of rooms at the military rate are available on a first come, first served basis. To reserve your room at the special group rate, please make your reservation by December 8, 2017. The government rate is subject to room availability and is offered over the following dates: January 4-17, 2018. Reservations made after December 8, 2017 may not be eligible for the discounted EAST rate.

*DISNEY'S GRAND FLORIDIAN RESORT & SPA (OVERFLOW HOTEL)

A second guest room block at the group rate of \$262 per night (plus applicable taxes – single or double occupancy) has been reserved for the Eastern Association for the Surgery of Trauma (EAST). To reserve your room at the special group rate, please make your reservation by December 8, 2017. The group rate is subject to room availability and is offered over the following dates: January 4-17, 2018. Reservations made after December 8, 2017 may not be eligible for the discounted EAST rate. Go to the [Annual Scientific Assembly](#) page of the EAST website to link to the online reservations page or call 407-939-4686 (indicate you are with EAST).

**Complimentary transportation services will be provided on a limited basis to/from Disney's Grand Floridian Resort (Overflow Hotel) and Disney's Contemporary Resort (Headquarters Hotel).*

Check-in is 3:00 pm, and check-out is 11:00 am.

AIRLINE AND GROUND TRANSPORTATION

AIRLINE

Orlando International Airport (MCO) is the primary airport servicing the Orlando and Lake Buena Vista, Florida area. MCO is approximately 45-75 minutes from Disney's Contemporary Resort and Disney's Grand Floridian Resort & Spa. The next closest airport is Tampa International Airport (TPA) which is 1 ½ hours from the resort.

GROUND TRANSPORTATION

DISNEY'S MAGICAL EXPRESS

Guests wishing to book Disney's Magical Express reservations can visit <http://www.disneyconventiontickets.com/disneyworld/transportation/> to schedule this complimentary service. Reservations are required. It is recommended you make your reservations at least 30 days in advance.

MEARS TRANSPORTATION

Provides round trip ground transportation from Orlando International Airport to Disney's Contemporary Resort and Disney's Grand Floridian Resort & Spa. Transportation options include private sedan, SUV, taxi, and van service. To make a reservation, please call (407) 423-5566 or visit: <http://www.mearstransportation.com/services/attraction-tickets/>.

DRIVING DIRECTIONS & PARKING

CANCELLATION/REFUND POLICY

Cancellations received in writing by Wednesday, January 3, 2018 will receive a full refund less a \$75 administrative fee. **Refunds will not be available for cancellations after this date.**

SECURITY

Badges must be worn to gain entry into the educational sessions, exhibit hall, and all other EAST sponsored events.

SPECIAL ASSISTANCE

If due to a disability, you will require any special accommodations while in attendance at this meeting, or have any dietary restrictions, please let us know by contacting Ms. Rachel Dixon, at 312-202-5616 or rdixon@east.org.

WHAT TO WEAR

Make the learning experience a comfortable one. Business casual (even if you are presenting) should be as formal as you get while joining your colleagues at the 31st Annual Scientific Assembly. **In fact, an environment free of business dress is preferred.**

CODE OF CONDUCT FOR EAST MEETINGS

By registering for the 31st EAST Annual Scientific Assembly you acknowledge that you read the [Meetings Code of Conduct](#) available on the EAST website and listed in the registration brochure; you know its contents; you entered into it as a free and voluntary act; and you agree to abide by its terms as a condition of meeting attendance.

Scientific Program Information

WORKSHOPS

Meeting workshops will be held Tuesday, January 9, 2018, Thursday, January 11, 2018, and Saturday, January 13, 2018. Please refer to pages 12-16 for workshop details. Workshop registration fees are in addition to the Primary Scientific Meeting registration fee.

SCIENTIFIC PAPERS AND QUICK SHOTS

SCIENTIFIC PAPERS

A total of 35 scientific paper presentations will be given during the 31st Annual Scientific Assembly over the dates of January 10-12, 2018. The Raymond H. Alexander, MD Resident Paper Competition will take place on Wednesday, January 10th; the Cox-Templeton Injury Prevention Paper Competition will be held on Thursday, January 11th.

QUICK SHOTS

54 Quick Shot abstract presentations will be given throughout the meeting on Wednesday, Thursday, and Friday, January 10-12, 2018. Quick Shots will be delivered as parallel sessions with 10 or 12 Quick Shots per session. Presenters will have three minutes to present followed by three minutes of discussion with questions from the audience and/or session moderators.

PRIMARY SCIENTIFIC MEETING

The 2018 program has been reorganized to offer you a better return on your investment with your primary registration fee. We have increased the number of Plenary Session offerings at the meeting, which in return, allowed for more CME and Self-Assessment Credit opportunities associated with the Primary Scientific Meeting. For ONE registration fee CME and Self-Assessment Credit will be available.*

**Subject to final CME and Self-Assessment Credit approval. Additional fees for workshops apply.*

PLENARY SESSIONS & NAMED LECTURES

A total of 11 Plenary Sessions will be held during the 31st EAST Annual Scientific Assembly. The Presidential Address will be delivered by EAST President, Bruce A. Crookes, MD, on Wednesday, January 10, 2018 from 1:00 pm-2:00 pm followed by the EAST Business Meeting (open to all EAST Members). The Oriens Keynote will be presented by EAST Past President, J. Wayne Meredith, MD on Thursday, January 11, 2018 from 1:45 pm-2:15 pm. The Scott B. Frame, MD Memorial Lecture will be delivered by Steven R. Shackford, MD, on Friday, January 12, 2018 from 8:00 am-9:00 am. An EAST Master Class Video Session will be held on Thursday, January 11, 2018 from 2:45 pm-4:00 pm. All Plenary Sessions are included in the Primary Scientific Meeting registration fee.

EXHIBITS

Scientific Papers That Should Have Changed Your Practice

Presented by the EAST Manuscript and Literature Review Committee
Clinicians and researchers must stay abreast of the data and evidence in our continually evolving field. These practice-changing papers provide the foundation for current Acute Care Surgery (ACS) patient care and are essential reading for those seeking to understand how ACS is practiced today. This session will provide an overview of important papers published over the past year that will impact how we practice Acute Care Surgery. Each presenter will summarize the background, methodology, and key findings for 3-4 high-impact papers in their Acute Care Surgery topic.

Moderator: Mark Seamon, MD

Speakers:

Julius Cheng, MD – Papers That Should Change Your Practice of Surgical Critical Care

Christian Jones, MD – Papers That Should Change Your Practice of Emergency Surgery Management

Ariel Santos, MD – Papers That Should Change Your Practice of Trauma Management

Turning Trauma Research into Community-Level Advocacy

Presented by the Injury Control and Violence Prevention Committee

As public health research and trauma research becomes more robust, we are increasingly identifying risk factors that can be mitigated by primary prevention efforts in the community. This session will address the need to educate attendees on effective, evidence-based, and creative injury prevention strategies. This session will introduce both local and state advocacy as a means for obtaining resources to introduce primary prevention programs.

Moderator: Alexander Eastman, MD, MPH

Speakers:

Marie Crandall, MD, MPH – Beyond “Scared Straight”: Effective and Evidence-Based Community Based Education Programs, and Adapting these Programs to Your Population

Shannon Foster, MD – Hey Partner! Learning How to Interact and Develop Partnerships and Plan Events with Community Based Organizations

Lisa Allee Barmak, MSW, LICSW – Advocacy 101: How to Interact with Your Local, State, or National Representation to Encourage Funding and Resources for Trauma Care

4:30 pm-5:30 pm

Parallel Quick Shots

Quick Shots Session I – Basic Science & Performance Improvement – Quick Shots 1-10 presented

Quick Shots Session II – Clinical Trauma – Quick Shots 11-20 presented

Engage the Masters

Presented by the EAST Career Development Committee

The “Engage the Masters” forum will be a highly interactive session that will allow residents, fellows, and junior faculty members to present brief, interesting cases to a panel of “Masters” who will discuss the management options, pitfalls, and innovations.

Moderators: Eric Bradburn, DO, Gary T. Marshall, MD, and Ayodele T. Sangosanya, MD

Masters: Lawrence Lottenberg, MD, J. Wayne Meredith, MD and Martin Schreiber, MD

Case Presentations:

Penetrating Liver Catastrophe – Roberto C. Castillo, DO, MPH, Virginia Commonwealth University
Blunt Airway Gone Awry – Alessandra Landman, MD, University of Oklahoma Health Sciences Center
When Domain is Lost – Zachary D. Warriner, MD, USC + LAC Medical Center

Launching the 2018 EAST Multicenter Trials

Presented by the EAST Multicenter Trials Committee

Young researchers often face significant challenges in identifying and organizing multicenter collaborative investigations. Organizations such as EAST provide a unique opportunity for peers to develop collaborative relationships centered on shared research interests. Furthermore, the sponsoring of a multicenter study by EAST may empower resource-limited centers and junior investigators to build a robust trial and enable them to reach and engage other sites to participate and yield greater scientific power and sample size to their multicenter clinical study. EAST Members and Scientific Assembly participants interested in joining a given multicenter study as a participating site will be provided the opportunity to sign up after the plenary session, in person, or online via email/website where they will also be able to obtain additional information about any new or existing study. These studies and the other EAST sponsored Multicenter Trials will also have an update of current progress and contact information posted online at www.east.com.

Speaker: Jose L. Pascual, MD, PhD, FRCS(C), FACS, FCCM

10:15 am-10:30 am

Morning Break - Refreshments provided in the Exhibit Hall

10:30 am-12:30 pm

Integration of a Palliative Care Guideline in the Trauma Population

Presented by the Society of Trauma Nurses (STN)

Palliative care is most commonly thought to be important only for those at or near the end of life; however, palliative care provides significant benefit across the entire spectrum of illness and injury, regardless of prognosis or age. Optimal palliative care requires an interdisciplinary approach throughout the continuum of care. Evidence exists that the implementation of a palliative care process in parallel to trauma care improves the quality of care for the patient and family as well as decreases length of stay, cost, and intensity of non-beneficial care at the end of life. Such evidence supports implementation of a palliative care best practice guideline. This session will provide a summary of the newly developed TQIP palliative care best practice guideline and include suggestions on how to implement and utilize the guideline. An overview of geriatric trauma, frailty, geriatric research, and process measures to review after implementation of a palliative guideline will also be presented.

Case Records of the Joint Trauma System: Integrating Lessons Learned from the Battlefield

Presented by the EAST Military and Online Education Committees

Although ultimately, the trauma system must support resources for optimal care of US Service members deployed, the largest volume of care being provided in many cases is care in support of partner forces (PF). These PFs are only now learning how to perform standard TCCC (care under fire, tactical field care, and care during evacuation) to control hemorrhage as rapidly as possible. Thus, these small surgical teams are receiving patients often with little to no pre-hospital care. After stabilization, these PFs are being transferred back into the existing local civilian hospitals that are often already overwhelmed. Cases presented will highlight new paradigms in deployed military trauma care in regard to challenges to optimal system resources and utilization. Each presenter will briefly discuss a challenging case from a patient care or system perspective with direct relevance to forward damage control, care of local nationals, or the evolving civilian system. The presenters and audience are asked to consider and comment on all aspects of patient care in relation to our current military operational environment and in relation to challenges to integration of military and civilian trauma care into a National Trauma System to ensure readiness for war and for the home front.

Moderator: Kyle N. Remick, COL, US Army

Speakers:

Jonathan Lundy, LTC, US Army – Austere Role 2 DCS and Use of Fresh Whole Blood

Scott Armen, COL, US Army Reserve – One Bullet, One Surgeon, Two Cavities: Multicavity GSW in the Austere Environment

Jacob Glaser, LCDR, US Navy – REBOA in Kandahar: A New Tool in the Bag for the War Surgeon

Timothy Plackett, LTC, US Army – Familiar Injury but a Different System: Back in Iraq

Valerie Sams, Maj, US Air Force – Delay in Care and Transfer Inadequate Management of Blast Injury in a Civilian

9:15 am-10:15 am

Leadership in a Complex Medical World - An EAST Leadership Development Workshop

TUESDAY, JANUARY 9, 2018 • 8:00 AM – 4:00 PM

Presented by the EAST Career Development Committee

Target Audience: Early Career Trauma and Acute Care Surgeons including Fellows-in-Training

Needs Statement: A successful career as an acute care surgeon requires education, planning, and guidance. Not all young surgeons have experts in career development in their mentor pool. This workshop provides essential contacts and education to help acute care surgeons succeed.

Overview: This re-designed workshop is part of the EAST Leadership Development series. It is a three-part, multi-year course focusing on the career development of the young trauma surgeon. Each workshop is designed to be a stand-alone course. In this way, surgeons can participate in the course at any time in the three-part series. This year's workshop will focus on leadership skills and strategies for the individual acute care surgeons in today's complex medical world. The knowledge and skills gained at this course can be applied not only at one's own medical center but also at the organizational level. Team-based learning exercises will be incorporated to encourage an active learning experience and provide more opportunity for interaction with course faculty. The faculty members include distinguished trauma and acute care surgery leaders known for excellence, not only in the EAST organization, but throughout the world.

Learner Objectives:

At the conclusion of the workshop, the participant should be better able to:

1. Describe the basic principles of billing and coding and initial strategies to optimize profit as a trauma division.
2. Recognize malpractice risks and learn methods to mitigate those risks.
3. Analyze the political landscape within the hospital setting and learn strategies for divisional planning and resource allocation.

Workshop Directors: Bradley M. Dennis, MD, Gary T. Marshall, MD, Ayodele T. Sangosanya, MD, Jessica Summers, MD

Course Size: 45 • **Course Price:** \$525

Faculty: Michael C. Chang, MD, Bruce A. Crookes, MD, Sharmila Dissanaik, MD, Blaine L. Enderson, MD, MBA, Stanley J. Kurek, Jr., DO, Richard S. Miller, MD, Joseph P. Minei, MD, MBA, Stephanie Savage, MD, MS, Michael J. Sutherland, MD, Cynthia L. Talley, MD

Getting Started as a New Researcher

TUESDAY, JANUARY 9, 2018 • 1:00 PM – 5:00 PM

Presented by the EAST Emergency General Surgery and Research-Scholarship Committees

Target Audience: Senior Surgical Residents, Trauma Fellows, and Junior Faculty planning for careers as surgeon-scientists

Needs Statement: Embarking on a career as a surgeon-scientist poses a number of challenges that one is generally not prepared for during clinical training or even a dedicated research fellowship. While one may be well-trained as a surgeon and as a scientist, there are a variety of practical concerns that frequently go unaddressed, and that can serve as stumbling blocks for the aspiring investigator.

Overview: This workshop is designed to provide attendees with practical advice on forming plans for a career in surgical investigation, knowing what to look for when seeking a first position, and the process of choosing and then managing a research team.

Learner Objectives:

At the conclusion of the workshop, the participant should be better able to:

1. Recognize different pathways that are available to aspiring surgeon-scientists.
2. Understand how to match personal interest with a program that fits interests.
3. Develop strategies to select and manage a research team.

Workshop Directors: D. Dante Yeh, MD & Robert D. Winfield, MD

Course Size: 45

Course Price: \$375

Faculty: Rachael Callcut, MD, Bellal Joseph, MD, David King, MD, Heena Santry, MD, Jason W. Smith, MD, PhD

SCHEDULE:

Bridging the Gap: A Chief Residents and Fellows Workshop

TUESDAY, JANUARY 9, 2018 • 1:00 PM – 6:00 PM

Presented by the EAST Career Development Committee

Target Audience: The audience is anyone soon pursuing or recently acquired a position in trauma and acute care surgery in both academic and private practice settings. This ranges from chief residents to fellows to new faculty.

Needs Statement: While most fellowships teach patient care and operative management, there are variable resources for transition to practice.

Overview: This is a half-day workshop that introduces early career physicians pursuing a career in trauma and acute care surgery with mentors and leaders in the field that can provide tips for success. The format consists of short lectures followed by small group discussions and a newly graduated panel.

Learner Objectives:

At the conclusion of the workshop, the participant should be better able to

1. Name variables to consider in order to find the right job.
2. Understand the hiring process including contracts, academic tracts, and private practice resources/expectations.
3. Name tips to starting the job out right including exploiting your niche, developing a professional portfolio, and avoiding landmines.

Workshop Director: Cynthia L. Talley, MD

Course Size: 45

Course Price:

\$0 for Chief Residents & Fellows who have registered for the Primary Scientific Meeting
\$375 all others

Advanced Practitioners in Trauma Workshop – Addressing Professional & Clinical Development: Moving from Ideas to Publication, Ventilator Management, and Cardiac Emergencies

THURSDAY, JANUARY 11, 2018 • 2:00 PM – 6:00 PM

Presented by EAST and the Society of Trauma Nurses (STN)

Target Audience: Advanced Practitioners

Needs Statement: Advanced Practitioners (AP) go where a service needs them most, whether that's critical care, the trauma bay, surgical floor, or elsewhere. Due to the broad skill set needed, it is prudent to refresh and challenge APs in the areas of trauma surgery, critical care, and emergency general surgery on a recurring basis. Furthermore, many APs are involved in non-clinical responsibilities and/or need encouragement to expand these professional areas. By focusing on critical care topics of ventilator management and cardiac emergencies, we will challenge and build these areas of practice. By addressing the publication process and furthering one's education, we will help APs identify opportunities to advance their careers.

Overview: The Advanced Practitioners in Trauma Workshop series is an ongoing effort between EAST and The Society of Trauma Nurses to provide clinical education and professional enrichment for physician assistants and advanced practice nurses. This year's workshop will focus on the critical care topics of ventilator management and cardiac emergencies as well as the professional topics of progressing from research idea to publication and furthering one's education. Participants will focus on outliers of typical ventilator management, such as the extremes of noninvasive ventilation to ECMO support. Opportunities to discuss management of cardiac emergencies in critical care, during rapid responses, and in the trauma patient will be explored. Formulating an idea and progressing it to abstract to manuscript to publication will be presented in a manner that will disillusion many of the barriers APs meet when seeking publication. An opportunity to discuss the advantages and disadvantages of furthering one's education with a DNP, PhD, or Masters degree will occur so that both PAs and APRNs can determine which path is best for them.

Learner Objectives:

At the conclusion of this workshop, the participant should be better able to:

1. Describe indications for noninvasive ventilation, mechanical ventilation, and ECMO support in the critically ill patient.
2. Describe management of acute cardiac emergencies in critical care, during rapid responses, and in trauma patients.
3. List opportunities to advance one's career through publication and further graduate education.

Optimal Trauma Center Organization and Management Course

SATURDAY, JANUARY 13, 2018 • 7:45 AM – 3:30 PM

Presented by the Society of Trauma Nurses - For additional information on this workshop, visit the STN website at www.traumanurses.org.

Target Audience: Trauma Medical Directors, Trauma Program Managers, Trauma Program Coordinators, and Administrators

Needs Statement: The participants are concerned that they do not have the ability to follow the site visit process or clearly delineate the strengths and weaknesses of their individual trauma programs.

Overview: This course is taught by physicians and nurses with the goal of enhancing a trauma center system of care and improving patient care. Whether a verified mature trauma center or a hospital preparing for designation, this course is designed to assist participants to create strategies, processes, and operations to support trauma center systems based upon their own environments.

Learner Objectives:

At the conclusion of this workshop, the participant should be better able to:

1. Discuss how to incorporate prehospital trauma performance improvement activities into their program.
2. Discuss your trauma center's role in Trauma Systems.
3. Discuss the leadership roles and responsibilities of the trauma program staff.

CODE OF CONDUCT FOR EAST MEETINGS

1. Introduction. The Eastern Association for the Surgery of Trauma (“EAST”) is a nonprofit corporation, organized for charitable, educational, and scientific purposes. In particular, EAST: (i) fosters advances in the study and practice of the surgery of trauma; (ii) provides a forum for the exchange of knowledge pertaining to injury control, research, practice, and training in prevention, care, and rehabilitation of injury; and (iii) advances research, education, and training regarding the prevention, correction, and treatment of injuries (“Exempt Purpose”). In furtherance of its Exempt Purpose, EAST conducts and/or sponsors educational meetings including, without limitation, Annual Scientific Assemblies and periodic internal and external meetings and programs (collectively “Meeting(s)”).

EAST seeks participation in its Meetings by individuals with varied and diverse backgrounds. EAST is committed to providing a friendly, safe and welcoming environment for all Meeting attendees, regardless of gender, sexual orientation, ability, ethnicity, socioeconomic status, religion (or lack thereof), and other individual characteristics. This Code of Conduct (“Code”) outlines EAST’s expectations of its Meeting attendees (including EAST members, EAST Board members, sponsors, invited guests, and any other person attending a Meeting), as well as the consequences for Unacceptable Behavior (defined below). We expect all Meeting attendees will abide by this Code at all Meetings, and in connection with activities outside of Meetings when such behavior has the potential to adversely affect the safety and/or wellbeing of Meeting attendees.

2. Expected Behavior. EAST expects its Meeting attendees will:

- Exercise consideration and respect in their speech and actions.
- Attempt collaboration before conflict.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.
- Be mindful of their surroundings and fellow attendees.
- Be respectful to all patrons at Meeting venues.

3. Unacceptable Behavior. “Unacceptable Behavior” EAST will not tolerate includes, without limitation:

- Violence, threats of violence, or violent language.
- Disruptive, intrusive, insulting, antagonistic, or any other malicious conduct.
- Sexism, racism, homophobia, transphobia, or other discriminatory conduct.
- Inappropriate photography or recording.
- Inappropriate physical contact.
- Unwelcomed sexual attention and/or advances; including, using sexualized language.
- Intoxication, contributing to inappropriate behavior.
- Deliberate intimidation, stalking or following (online or in person).
- Sustained disruption during Meeting events, including talks and presentations.
- Advocating for, or encouraging, any of the above behavior.
- Any other conduct deemed inappropriate and/or that may jeopardize the success of a Meeting, EAST’s reputation and goodwill, or the positive experience of any other Meeting attendee.

4. Consequences of Unacceptable Behavior. Unacceptable Behavior by Meeting attendees will not be tolerated. The determination of whether conduct constitutes Unacceptable Behavior, and the consequences imposed by EAST for the same, rest solely within EAST’s discretion, and said determinations are final and not subject to appeal. Anyone asked to stop Unacceptable Behavior is expected to comply immediately. If a Meeting attendee engages in Unacceptable Behavior and/or does not comply with this Code, EAST may take any action deemed appropriate, up to and including a temporary ban or permanent expulsion from a Meeting without warning (and without refund, in the case of a paid event).

5. Reporting Guidelines. If you are subject to, or witness, Unacceptable Behavior, or have any other concerns, please notify EAST as soon as possible by contacting EAST’s Executive Director or EAST’s Executive Committee. If the subject Unacceptable Behavior involves the Executive Director, please notify EAST’s current President. Additionally, Meeting organizers are available to help Meeting attendees engage local law enforcement, or to, otherwise, help those experiencing Unacceptable Behavior feel safe. During Meetings, organizers are available to provide escorts as desired to the Meeting attendee(s) experiencing distress.

Any questions or comments regarding this Code should be directed to EAST’s Executive Director.
